

MAIDA LAKHANI

✉ maidalakhani1@gmail.com | ☎ 0333-9241017 | 📍 Karachi, Pakistan

OBJECTIVE

Motivated and detail-oriented student with a strong interest in Artificial Intelligence and Data Science. Currently building skills in Python programming and machine learning model development. Eager to apply my knowledge in real-world projects and continuously learn and grow in the field of data science and AI.

TECHNICAL SKILLS

Programming Language	: Python
Data Science & AI	: Basic Machine Learning, Model Building (Model Fitting), Data Cleaning, Data Preprocessing, Data Analysis
Libraries / Tools	: Pandas, NumPy, Scikit-learn, Matplotlib
Other Skills	: Problem Solving, Analytical Thinking, Attention to Detail, Willingness to Learn

PROJECTS

- Machine Learning Model Project**
 - Built a machine learning model using Python.
 - Performed data cleaning, preprocessing and model fitting.
 - Evaluated model performance using appropriate metrics.
 - Data Analysis Practice Project**
 - Analyzed datasets using Pandas and NumPy.
 - Created visualizations using Matplotlib.
 - Identified patterns and insights from data.
-

EDUCATION

Intermediate (In Progress)
1st Year Completed
2nd Year – Continuing

COURSES & LEARNING

- Python Programming
 - Basic Machine Learning
 - Data Analysis with Python
 - Artificial Intelligence – Fundamentals (Learning)
-

ADDITIONAL INFORMATION

- Passionate about Artificial Intelligence and Data Science.
- Continuously learning new technologies and improving skills.
- Interested in working on real-world data science and machine learning projects.
